MS Traders

BRAND GUIDELINES · VERSION 1.0

Groceries at trader prices, delivered fast.

Menamkulam, Thiruvananthapuram

October 2026

01 · THE BRAND

The neighbourhood store, now on your phone.

MS Traders is a grocery store in Menamkulam that delivers to homes within 5 km. We sell vegetables, staples and household essentials at the prices traders pay, and we bring them to the door in a slot the customer picks.

These guidelines keep MS Traders looking and sounding the same everywhere: the customer app, the admin panel, the delivery partner app, packaging, print and social media. When something isn't covered here, choose what is simplest and most useful to the customer.

PROMISE

Fair prices. Fresh stock. On time.

Honest

Real prices, real MRPs, no hidden fees. If something is out of stock, we say so.

Local

A store people know by name, serving a 5 km neighbourhood.

Quick

Fewer taps, clear slots, and deliveries that arrive when promised.

Careful

Fresh produce chosen and packed as if for our own home.

02 · LOGO

The bag mark

A shopping bag with an amber handle, carrying the M of MS Traders. It reads as “a bag of groceries” at a glance and still holds up at app-icon size.

PART	MEANING AND RULE
Handle	Amber #FFB020 with rounded ends. It is the only amber element in the logo.
Bag	A rounded square (corner radius 30% of its width). Green on light backgrounds.
M	One continuous stroke with rounded joins, white or green depending on the bag.
Wordmark	“MS Traders” in Plus Jakarta Sans ExtraBold, –2% tracking. Never retyped in another font.

Primary lockup: horizontal, full colour on white

Construction: the M is centred on the bag and meets at 56% of the bag height

02 · LOGO

Versions, clear space & minimum size

Full colour · white or mint backgrounds

Reversed · on brand green

On ink · dark photos and night mode

One colour · stamps, receipts, newspaper

USE	MINIMUM

Lockup, screen	110 px

Clear space

Keep a margin of **X** on every side, where X is the height of the bag handle. Nothing — text, edges, other logos — goes inside it.

Which version

Use full colour wherever possible. Use the reversed or one-colour version only when the background or print process demands it. On photos, place the logo on a calm area or on a solid green panel.

02 · LOGO

Don’t change the logo

The logo only works if it looks the same every time. Always use the supplied artwork files. Never redraw, edit or recombine the mark yourself.
